Forklift certification is delivered on site by qualified instructors with many years of practice. Trainees will learn how to recognize dangers and carry out safety checks needed for the effective and safe utilization of a powered industrial lift truck.

### Forklift Training Tips

It is vital that all workplaces making use of forklifts have the checklist below or one equivalent on the premises. If all of the safety regulations are being followed, each of these questions should be answered with a "yes". A "no" to any question indicates a procedural weakness which can lead to accident, injury or damage to machine.

- 1) Is the operating area of the forklift separate from the traffic of pedestrians?
- 2) Is pedestrian access to forklift travel areas restricted by barriers?
- 3) Are pedestrian walkways provided and well marked?
- 4) Are "forklift in operation" signs visibly clear?
- 5) There are mirrors provided at blind spots for operators and pedestrians?
- 6) Alterations or changes to the daily forklift schedule has been communicated to workers?
- 7) The forklift tires being utilized are suitable for all operating surfaces?
- 8) Lift truck seatbelt is being utilized?
- 9) Is the seat in good condition?
- 10) The maintenance schedule of the forklift is being followed?
- 11) Are yearly checks of the forklift being done?
- 12) Is the type of forklift appropriate for the tasks?
- 13) Is there a readable load chart on the forklift?
- 14) Can the operators read and understand the load chart?
- 15) The chart lists the safe lifting capacity for all attachments and their uses?
- 16) Are the warning devices on the forklift working correctly?
- 17) The speed operating control device is secured properly?
- 18) The forklift overhead cage is fitted right?
- 19) Have all lift truck operators obtained certification?
- 20) Are speed limits and warning signs being observed?
- 21) Are lift truck operators up to date on training for all types of lift trucks being used?
- 22) Forklift operators know their responsibilities to report the damage to the equipment and other forklift incidences?
- 23) Is the pre-test checklist reviewed each day prior to the machinery being used?
