

## **Clark Forklift**

Currently, there are over 350,000 Clark forklifts performing globally, and more than 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of forklifts, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's continual goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001. Clark, is the first forklift manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

### **Lean Production**

Clark has selected the structure of "Lean Production" at all of its assembly facilities for the reason that this system is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective ways for production facility stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

### **Engineering**

Clark's product engineers and suppliers communicate together to improve the effectiveness and excellence of their merchandise while minimizing expenses. The new value engineering agenda combines modern product growth and provides improved consumer support and service within the industry.
