

Genie Forklift

Genie is a universally established corporation that enjoys the spirit of partnership with their sizable network of allied clients. Genie Industries prides itself on the idea of bringing materials and people higher and extending further beyond the goods they produce. Genie Industries strives to help clientele erect their operations no matter how large or small the scale of undertaking may be.

In 1996, with the introduction of the Genie Hoist, which is a pneumatic, versatile materials lift spawned the foundation of Genie Industries. A succession of aerial work platforms and additional materials lift trucks followed to satisfy customer demand. These progressive goods secured universal acknowledgment and established modern product design.

Genie Industries is at this time a subsidiary of Terex Corporation. Maintaining leading quality production and uncompromising service and support are among their top priorities.
